

Big data& Hadoop

MATS School of Information Technology, MATS University Raipur (C.G.) conducted three-day workshop on the topic “**Bigdata& Hadoop**” from 22 December to 24 December 2016. Mr. Yeosunn Liu the convener of the workshop shared his views about the technical aspect of Big Data and Hadoop that includes the application of Big Data, its installation, configuration of Hadoop along with the tools highly used in the field of Big data for the purpose of Data Analysts. The workshop was attended by all the graduate and post graduate students of computer science B.Sc.(C.S.) and computer applications. This workshop was indeed knowledgeable and an eye opener for novice students and for those who want to excel in the field of IT as data analyst and Data Scientist.
