

## **AAGHAAZ STARTED WITH A BIG BANG AT MATS UNIVERSITY**

The three days technical festival of Aaghaaz 2018, organized by School of Engineering & IT, MATS University has started with a big blast. Many technical as well as non technical events took place on day one of the three day technical festival. The Program started with the inaugural speech given by Dr. Byju John, Vice Chancellor, MATS University. Registrar Mr. Gokulananda Pandar and Dr. P. Udayakumar, Principal of MSEIT have graced the event with their presence. The inaugural function was followed by multiple events happening in parallel. The Safe Landing event was going on which focused on landing a parachute inside a small circle from third floor of the building. Student's self designed and built robots took part in Robo Soccer and Robo Sumo. A brain storming puzzle was happening which tested the knowledge of students about the logos of various companies. Students took part in the Start-Up Idea event where they presented their ideas and the best one got selected, which motivated other students to think about it as well. A Nukkad Natak was performed by several teams on different issues pertaining in our society today. Students also tested their aim in the Dart Board game.

Head of departments, faculty members of all the departments of MATS University and large number of students from various colleges in Chhattisgarh have participated in the event.
