Press Release

Orientation Program at MSBCS, MATS University

As a part of tradition of MATS University this year also MATS School of Biological and Chemical Sciences has organized orientation program for new students of B. Sc. Biotechnology & Microbiology and M. Sc. Biotechnology, Microbiology & Chemistry courses. The motto of organizing orientation program is to make new students comfortable with their classmates, the environment of the department and University at large. Also to make them understand the department and general rules & regulations of the University and to know the faculty members along with the different courses running under the department. During this occasion few selected senior student volunteers have welcomed them by Indian tradition with Kumkum Tilak. On This occasion Dr. Kallol Kumar Ghosh, Professor and Senior Scientist, Pt. Ravishanker Shukla University, Raipur

more

was invited as Guest speaker. The students were blessed with the motivational lecture of Dr. Ghosh. He shared his experience and views about the interdisciplinary nature of science and need of interdisciplinary studies in modern era. The departmental profile was presented by Head of Department in front of new students. The senior students of the department have organized few cultural activities and games for them. During this auspicious day of orientation program Deputy Registrar, Heads of other departments of the University and other faculty members of the department were also present. Deputy Registrar conveyed the blessings and good wishes of Hon'ble Chancellor, Vice Chancellor, Director General and Registrar.

In continuation to this orientation program on second day Dr. K. Subramaniam, Director General, Chhattisgarh Council of Science & Technology, Raipur and Principle Chief Conservator of Forest, Government of Chhattisgarh was invited as guest speaker. The students are benefited by the motivational talk of Dr. Subramaniam and it's important in transforming career. According to Dr. Subramaniam students should pursue higher education and gained knowledge must be use for the development of society. He presented a very interesting insight on current education system and the minute difference between literacy and education. He encouraged students to be aware about their social responsibilities and to be a good citizen of our country.
