Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?  
(maximum 500 words)

Feedback Obtained
<p>Feedback is obtained from the students, faculties and other stakeholders. A questionnaire is provided to them with specific questions which can be answered by choosing options from YES/NO and their observation and opinion can be written in 250 words maximum. Feedback is taken on the Curriculum, Teaching Learning Process, Faculties, Facilities and University system. Feedback on Curriculum is obtained from Alumni and Industry also in a separate format in every third year. Replies to the first type of feedback are analyzed on a four point scale of Satisfactory, Good, Excellent and Needs Improvement. After analysis the result of feedback is shared with the concerned for doing the needful as per the requirement. University takes the feedback very seriously and makes necessary changes in all the areas wherever it is found justified. Strong feedback system has resulted in constant improvement and its positive results have been felt by all. Stakeholders have expressed their satisfaction over the outcome of the feedback. Replies to the second type of feedback are more serious as they help to cater to the needs of the passing out students. University tirelessly strives to keep its curriculum abreast with the prevailing as well as upcoming or emerging scenario of market and industry. Hence their importance is very well understood. Alumni, Employers and distinguished persons from industry provide their valuable input in this regard. Their feedback is discussed in the Staff Council that decides its relevance and makes the necessary changes in the syllabus as and when felt essential, which are further discussed in the Board of Studies of the concerned department. Result of this feedback often is upgrading the syllabus as per the requirement but sometimes it goes up to the extent of introducing new courses / papers. On the basis of feedback more companies are invited in the campus and</p>

Placement Conclave was organized in which different companies and carrier guides were invited. This conclave was a huge success. On the basis of feedback, for students many weekend seminar activities by students were conducted. This helped them to enhance their academic as well as organizational skills. On the feedback of Parents, PTM sessions were increased and new ERP system incorporated in the university system. Now the University is in the process of implementing new ERP and almost all the services are being made available online to the legitimate users.

MentorMentee relationship Objectives: To establish a trust relationship with accountability and responsibility To bring balanced perspective to any discussion in any condition The Context Female students face unconscious bias in the society that affects their academic career and growth. Students from rural background need more psychological, lingual and instrumental support through mentoring Students with racial, cultural and ethnic differences view the world in a different way thus need mentoring to let them perceive things in a better way. The Practice Mentoring is a great method to boost student development and engagement. AS per our mentoring process an experienced faculty counsels helps the students to develop his or her confidence and skills through a series of programes, onetoone conversations and other learning activities. Evidence of success Mentee/student developed a strong trust on the mentors and followed guidelines extended by the mentors. This changed the perspective of the student's and student academic progression was observed. Female students were counseled and as a result excelled in their academic career and self confidence. Students from rural background faced various complexes and after proper mentoring sessions were able to cope up with them. Students with ethnic and cultural differences were able to accept these differences as their strength.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

The students have formed Green Community Club: It promotes greenery, supervises

environmental impacts and generate awareness on environmental issues. This initiative has been taken by the students and faculties and they manage the activity like Tree plantation, Campus Cleanness and activities towards awareness for environmental conversation.

**Air Water Harvester :** Nature has its own hydrologic cycle which restores the water vapour and this is a source of clean water. Akash Amrit is a plug and play Air water Harvester with the principle of condensation to convert atmospheric water vapour into clean drinking water.

**Use of renewable energy :** MATS University has established 200 KW PV and 100 KW PV Solar Power Plants in Main and Raipur campuses respectively. Which provides almost 18 of total electricity consumption.

**Paperless Office :** Staffs are directed to use emails and ERP more frequently and not to use papers unless necessary.

**Solid Waste Treatment:** The solid waste generated from the University is effectively recycled. The solid waste generated in the Institutes will be mostly waste papers, answer sheets and domestic waste like kitchen waste. The Institutes have compost pit for kitchen waste of mess and canteen which provides the good disposal of solid waste.

University employees go for policy of reuse, repair, recycle wherever possible in their working. The university has massive plants and trees on the campus and is a green campus in reality. Sufficient money is spent to keep the environment green. **Hazardous waste management:** The faculties use very less corrosive chemicals for carrying out practical classes. Disposal to drains is done in dilute form and is kept in minimum practical. Chemicals are purchased in minimum quantity to save expiry and disposal.

The Institute buildings which have been designed specifically on prescribed parameters of energy efficiency and environmentally benevolent technologies. Following aspects in particular need special mention: (a) All the buildings have been so designed that there is appropriate natural daylight, thus minimizing the exploit of artificial lights during the day. (b) The buildings have been so designed that they remain relatively cool during summers and warm during winter even without air conditioners, thus there is a positive environmental impact. It reduces temperature sway also. (c) All the buildings have proper air ventilation, proper aesthetic appearance, well maintained neat and clean structures and infrastructure. (d) All the buildings use greenery and are surrounded by sufficient number of trees so that there is overall positive environmental impacts (e) The drainage system of the buildings enables water reuse in promoting greenery in the campus.

**The practice of Carpooling:** Faculties and admin staff follow the practice of the Carpooling. Carpooling offers a number of benefits: It can dramatically cut your commute costs, it reduces congestion on busy highways, and it can even help alleviate the stress of driving.

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

**Best Practices of MATS University :** 1. MATS Connect Objectives of the practice: a) To provide the students an exposure to contemporary social reality b) To facilitate community empowerment through a convergence and involvement of various departments c) To make students empathetic towards the society d) To awaken the sense of responsibility among students towards underprivileged community The context: The University's focus for community improvement and engagement connects academic program with community service so that students, faculty and community partners can forge linkage between the resource of institution and community development. Due to illiteracy, negligence and lack

of correct communication from the sources concerned, the University takes initiatives to promote awareness in the community. The Practice: The University has taken initiatives for encouraging and promoting the importance of higher education by community engagement under the campaign "Mats Connect" as a part of Institutional Social Responsibility towards community. Some activities of MATS Connect are :

a) "MATS Deepdaan Utsav" : Information Technology department of MATS University approached leprosy disease suffering people of society at Gandhinagar Raipur and distributed stuffs i.e. diya, oil, baati etc. for celebrating 'Deepawali'. Through this distribution MATS University tried to bring happiness in these homes and passes this message also that these poor and leprosy suffering peoples are also close part of the society. By distributing earthen lamps, MATS university student gave message that rather than buying decorative candle and lights people must go for earthen lamps and environmental friendly stuffs this 'Deepawali', so that those poor family get help, who are dependent on these selling business.

b) Paani : A very famous nukkad natak based on social issues of politics entitled Paani is played by MSIT students at Rajyotasav on 3rd November, 2016. Regardless of holidays of festival, students departed their time for preparation of Play. They covered the Chhattisgarh government initiative against this political issues. In play they Highlighted the women empowerment, rights of voting, agricultural and other employment policies started by government for better life of citizens. Around 20 students played nukkad natak several times at rajyotsav on public request. It is well appreciated by all higher authorities of University.

c) "Pehel" The women empowerment initiative : The students of department of English, along with the faculty visited the villages Sianmara and Sakraud, Bemetra. The whole activity included a four hours travel to the villages, where students screened their documentary 'PEHEL', which was based upon women empowerment and was shot in the same village during the previous visit. The department also motivated the women of the self help groups by distributing the copy of documentary Pehel and gifts as memento. The students of the department also promoted this documentary movie through various News Channels.

d) Carrer Connect : MATS School of Engineering and Information Technology has started an initiative of career guidance and counselling for village students of aarang Tehsil. Evidence of success These programs have made a difference to the lives of underprivileged and illiterate women. In the present day society the emotional bond between parents and children seems Problems Encountered Lack of motivation among the learners was the main obstacle reported by the students taking part in the activity 2.

Strong Mentor Mentee Relationship Objectives of the practice: To establish a trust relationship with accountability and responsibility To bring balanced perspective to any discussion To create a risk free environment while comfortable sharing of ideas, thoughts, weakness, challenges and so forth. The Context : Female students face unconscious bias in the society that affects their academic career and growth so they needs mentoring. Students from rural background need more psychological, lingual and instrumental support through mentoring. Students with racial, cultural and ethnic differences view the world in a different way thus need mentoring to let them perceive things in a better way. The Practice : Mentoring is a great method to boost student development and engagement. The MATS University follow its mentoring process in which an experienced faculty counsels helps the students to develop his or her confidence and skills through a series of programs, oneone conversations and other learning activities. Mentors also draw benefits from the mentoring relationship. As a mentor, one finds the opportunity to share one's wisdom and experiences, evolve one's own thinking, develop a new relationship, and deepen one's skills as a mentor. The university maintains both formal and informal mentoring relationships. Informal mentoring occurs within the department and supervisory relationship with the mentor. A formal mentoring relationship is characterized by its intentionality - the mentees ask for some counseling in specific area, establish goals and make agreements about its nature. Evidence

of success: The evidences of success, after the formal and informal mentoring sessions are as follows Mentee/student developed a strong trust on the mentors and followed the guidelines extended by the mentors. This changed the perspective of the students and student academic progression was observed. Female students were counseled and as a result excelled in their academic career and self confidence. Students from rural background faced various complexes and after proper mentoring sessions were able to cope up with them. Students with ethnic and cultural differences were able to accept these differences as their strength Problems encountered : The informal mentoring sessions are not properly structured as they take place randomly There is a lack of defined measurements to check the success rate of mentoring sessions It was observed that at times mentees were learning what mentors thought they should learn not what the mentees themselves felt they needed to learn.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Broad Vision of the University states that MATS University will be a benchmark institution for lifelong partnerships with students, the workforce and public and private enterprises. As the Tag line of MATS University goes, 'MATS ready for life' it has successfully maintained lifelong partnerships with the students and always kept it as its thrust area while imparting knowledge. We have tried our best to reach the students to acquire such professional and skill oriented education in their area of expertise and always supported them for their endeavor. Such an environment is the natural result of the following strengths of the university : 1. It's adherence to its foundation concepts that have laid out the trajectory of its growth plan. 2. Its outstanding Human Resource Management system to ensure 'a shared vision, a cohesive team and an engaging work culture'. 3. Its meticulously planned and implemented personal and professional development programs for its faculty and students. 4. Its wellplanned governance structure and administrative mechanisms to ensure speedy implementation of all developmental plans. 5. Its relentless efforts at attaining the best possible balance between growth and sustainability. Taken together, these strengths have contributed in ample measure towards the creation of a culture in the University that is uniquely our own, that energizes us in all that we do, and knits us together into one community even after the students pass out from the university. The spade work of this starts from the moment a student enrolls in the institution. Along with imparting domain knowledge the university strives to give entrepreneurial skills as its value add course. Through proper counseling, the mentor identifies the skillset and ability of the students and through incubation centre encourages them to start up their own venture and supports them by maintaining a lifelong partnership with them. Following are few examples that reflect this distinctive thrust area of the University. 1. Nikhil Baid, a student of BBM of 2004 batch is our partner in infrastructural development. 2. Umair Dhebar, a student of MBA of 2014 batch is our hospitality partner in all the events of the University 3. Navneet Singh Combo, a student of BFT of 2015 batch is our partner in making and supplying blazers for students of various departments. 4. Viplav Soni, a student of BBM of 2004 batch is our partner in supplying required products for transportation maintenance of University vehicles. 5. Amandeep Singh Bagal, a student of BBM 2014 batch is our partner in supplying gifts for all the employees that the University gives to them on their Birthdays. 6. Neeraj Dwivedi, a student of MBA of 2015 batch is our partner in

supplying public address systems during all the functions and events of the University. 7. Sameer Gupta, a student of BBM of 2013 batch is our partner in supplying all the required utensils for mess and canteen of the University. Around 40 percent of the University's procurement is carried out through the student's partnership.

### **8.Future Plans of Actions for Next Academic Year**

Future plans of the University are primarily aiming at up scaling the intellectual environment of the University. This includes aiming at inducting better quality students, faculty and intellectual assets. Strengthening the existing Academic and Administrative system shall be one of the foremost objectives of the University. All systems of the University are functioning in the best possible way, yet there always is a need and scope to bring improvements in them as per the changing times that are identified through feedback and also in the course of routine working. We strongly believe that academic research can strongly contribute to corporate decision making and has a well-developed research plan for the upcoming year. The faculty is actively involved in research in the emerging areas of UAV Technology, Solar Thermal Applications, Advanced construction materials, Artificial Intelligence, Executive Compensation and Internet of Things, Entrepreneurship development amongst several methods, technological evolution and research paper writing, thereby aiming at increasing the intellectual output of the University. To address the requirement of better quality of student's other contemporary areas. The institution plans to host a set of international conferences in the upcoming year. The objective of these research based forums will be to serve as inter-disciplinary and multi-disciplinary avenues for exchange of best research practices and research outcomes, for the benefit of the corporate professionals, industry practitioners, academicians and researchers at large. Research workshops and special sessions are also being organised with the intention of familiarising individuals with the latest developments pertaining to research focus will be on admission outreach of students on Pan India basis, Customized workshop in Engineering, Merit Scholarship for meritorious students During the recent past the faculty recruitment process has focused on inducting faculty with PhDs and good research background. We plan to improve the ratio of PhD faculty members keeping in view the requirement of various accreditations. We are applying to all possible funding and grant schemes by government and non-government organizations. We have submitted the proposal for MODROBS and Short term training program for faculty to AICTE. We plan to establish incubation cell under the CG government grant scheme. University shall focus more on coming up with Skill Based Courses to enhance the employability of its students. Additional emphasis shall be given on Placement of the passed out students. Besides inviting more renowned companies, the University shall spread its reach among the well placed alumni to achieve a congenial work atmosphere of its students. Development of infrastructure facility is also in process although its augmentation is an ongoing process. University is striving to make it a world class Institution in all aspects.
